# Custom Fabrication

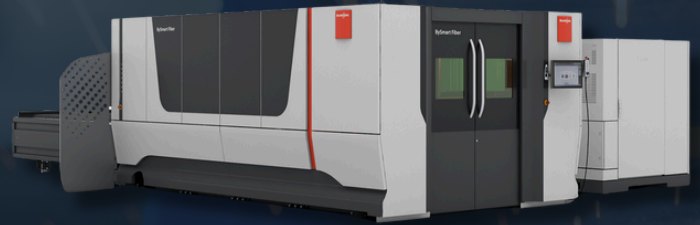

We're equipped for precision, versatility, and efficiency to deliver perfect parts at a competitive price, no matter the job. A full list of services is available online!

## Laser Cutting

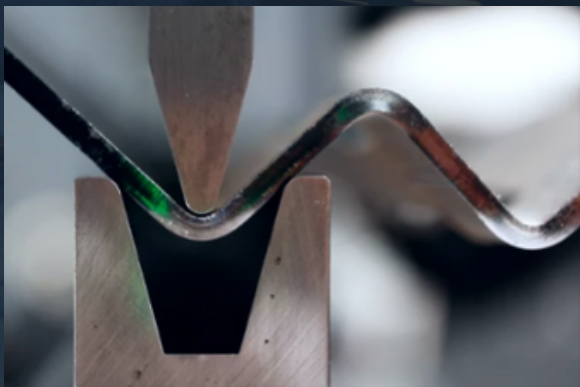

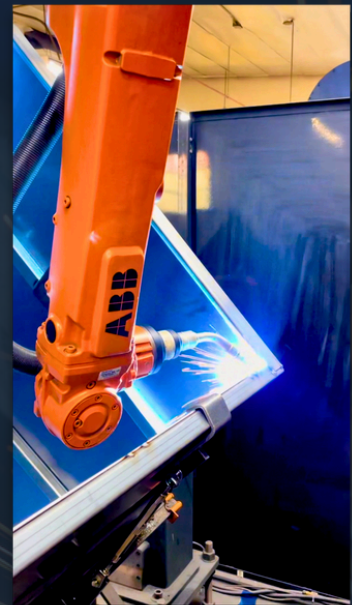

From prototypes to bulk orders, our large-format 6kW Bystronic fiber laser will cut to your specifications with accuracy and excellence.

We proudly invest in top equipment to better serve you. Learn more about our machines on our website!

## Robotic Welding

Cole Industries offers a comprehensive suite of welding services catering to a diverse range of applications. From one-off projects to large production runs, our state-of-the-art equipment and expertise will deliver exceptional quality parts, every time.

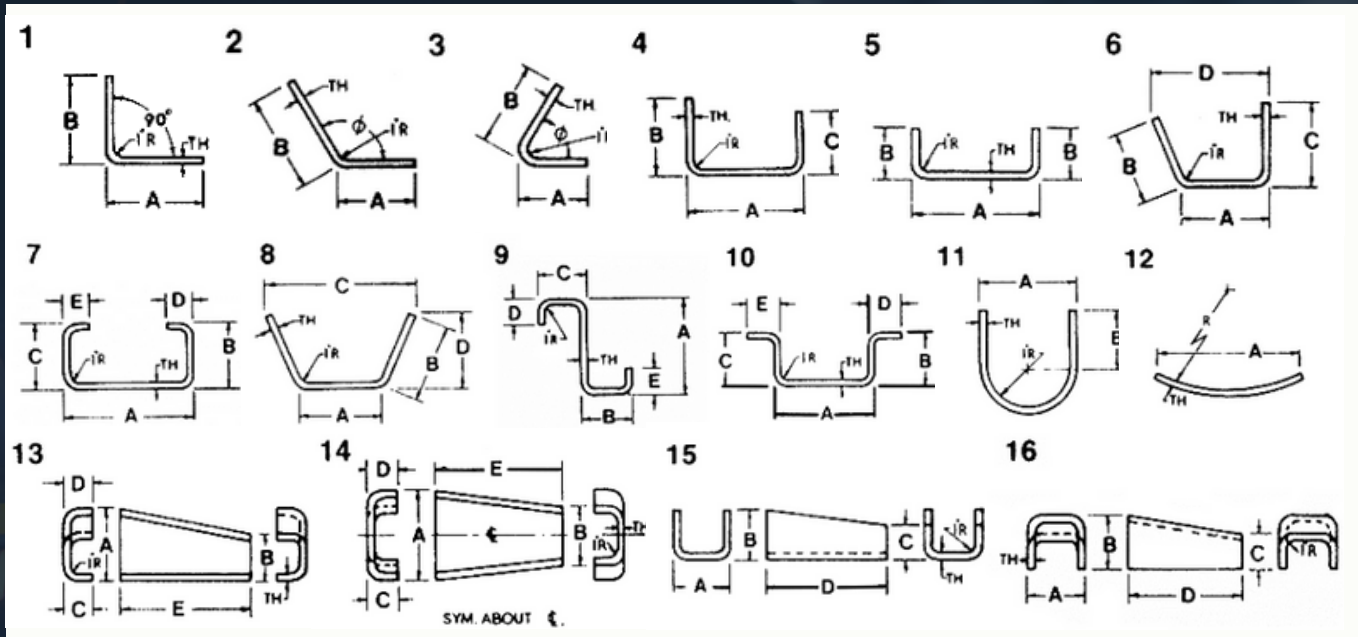

## Bending & Forming

Our press brake can bend parts of various complexities to precise tolerances. Choose from standard cross-sections (Fig. A) or contact us to request a custom shape.
